

# Disaster Recovery and Business Continuity - Tactics & Technologies

March 26, 2015

## Is Your Company prepared for a disaster? Do you have a plan in case of an earthquake? What about a crashed server?

Without a workable Business Continuity plan, any number of disasters (big or small) could destroy your business. In this Executive Lunch 'n Learn event, we will cover:

- The difference between Disaster Recovery and Business Continuity
- How to build (and maintain) a workable Business Continuity Plan
- Technologies that enable fast, affordable business recovery
- The three most common overlooked facts about Business Continuity

This event is perfect for both executives and IT personnel. Please join us!

Please Register Now-Seating is Limited (800) 339-0690 ext 148 or [events@clarecomputer.com](mailto:events@clarecomputer.com)

Clare Computer Solutions has helped many companies prepare, devise, and implement business continuity plans to protect their business.
